

MANI KRISHNA MEDISETTI

Hyderabad, India — +91 95506 51882 — manikrishnamediseti@gmail.com
LinkedIn — GitHub

PROFESSIONAL SUMMARY

Data Analyst with a Master's degree in Data Science and hands-on experience in **data cleaning, SQL analysis, Excel, Power BI, Python, and data-driven reporting**. Skilled in preparing datasets, performing exploratory analysis, identifying trends and patterns, and translating analytical findings into actionable business insights. Experienced in PostgreSQL-based data analysis and Power BI dashboard development, with a strong focus on data quality, analytical problem solving, and communicating findings.

TECHNICAL SKILLS

Programming & Querying: Python, SQL

Data Analysis & Reporting: Excel, Pandas, NumPy, Data Cleaning, Exploratory Data Analysis, Feature Engineering, Statistical Analysis

Databases: PostgreSQL

Business Intelligence & Visualization: Power BI, Matplotlib, Seaborn

Analytics & Machine Learning: Scikit-learn, Classification, Regression, Model Evaluation

Cloud: AWS, Microsoft Azure

Tools: Git, GitHub, Jupyter Notebook, Google Colab

EXPERIENCE

Mahindra University

Machine Learning Intern

Hyderabad, Telangana

May 2025 – Jul 2025

- Prepared and analyzed multiple datasets using **Python and Scikit-learn**, applying data preprocessing and feature engineering for analytical modeling.
- Performed **data cleaning and transformation** to prepare datasets for reliable classification analysis.
- Evaluated analytical results across multiple datasets, identifying **patterns and data-driven findings** to support project conclusions.
- Documented analytical results and **presented findings to the project mentor**, communicating results clearly.

Infosys Springboard

Virtual AI/ML Intern

Virtual

Feb 2026 – Apr 2026

- Led a cross-functional team of interns in developing an AI-enabled Wildlife Poaching Detection Platform using **YOLOv8**.
- Collected and curated datasets from **Kaggle, UCI Repository, and other public sources** to support model development.
- Created and annotated a custom dataset using **Roboflow** and performed data preparation using Python and Google Colab.
- Developed an interactive **Streamlit interface** and integrated MongoDB for backend data management and application workflows.

PROJECT

Customer Shopping Behavior Analysis

2026

Python, PostgreSQL, SQL, Power BI

- Analyzed **3,900 customer purchase records** to identify purchasing patterns across demographics, product categories, subscriptions, discounts, and customer satisfaction.
- Cleaned and transformed raw data using **Python and Pandas**, including missing-value treatment, column standardization, and feature creation.
- Loaded prepared data into **PostgreSQL** and performed SQL analysis covering revenue, customer segments, product performance, discounts, subscriptions, and purchasing behavior.
- Built a **Power BI dashboard** to communicate analytical findings and generate business recommendations related to customer loyalty, subscriptions, discounts, and product performance.

EDUCATION

GITAM University

Master's in Data Science

Hyderabad, Telangana

2024 – 2026

Pragati Degree College

Bachelor's in Data Science

Andhra Pradesh

2020 – 2023

CERTIFICATIONS

- Machine Learning and Statistical Concepts – Indian Statistical Institute
- Databases and SQL for Data Science with Python – Coursera

- National Workshop on Large Language Models – GITAM University
